

INSTRUCTIONS FOR INTEGRATING BLUEORANGE E-COMMERCE GATEWAY WITH WOOCOMMERCE

www.blueorangebank.com

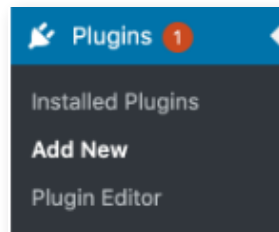

STEP-BY-STEP INSTRUCTION

Compatible with WooCommerce versions: 3.5.0 – 4.1.1

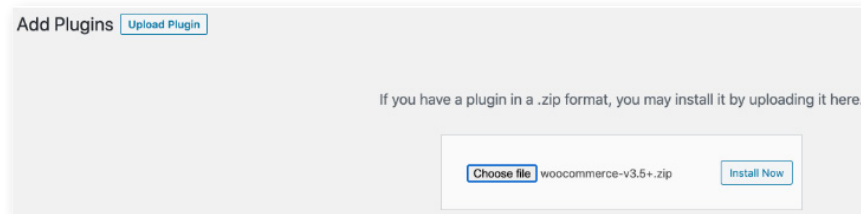

1. Download BlueOrange E-commerce Gateway plugin from:
https://gateway.blueorangebank.com/ecommerce_modules/woocommerce-v3.5+.zip
2. Log into your WooCommerce store admin panel by specifying authentication credentials.

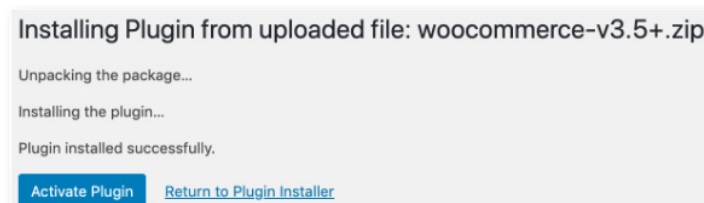

3. Open the **"Plugins"** -> **"Add new"** section.

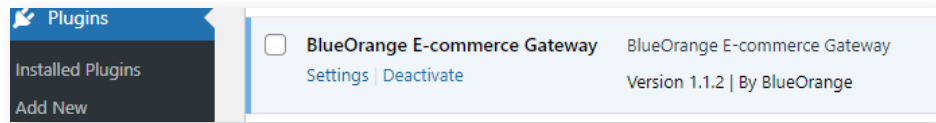

4. Press the **"Upload Plugin"** button and select BlueOrange E-commerce Gateway plugin file downloaded in Step 1, then press **"Install Now"**. In rare cases, e.g. if your server is not configured to allow automatic installations, you may need to install the BlueOrange E-commerce Gateway plugin by manually transferring Blueorange plugin files onto the server.

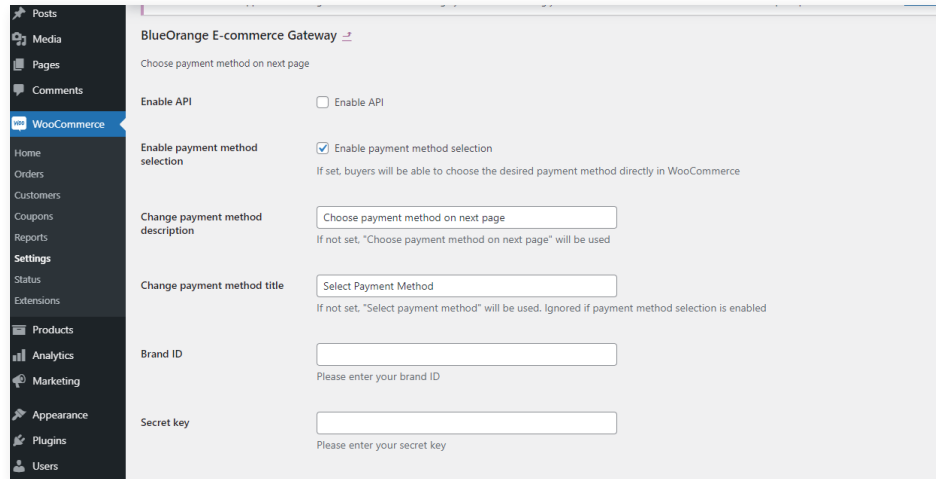

5. Press **"Activate"** button to activate the installed BlueOrange E-commerce Gateway WooCommerce plugin.

6. Find BlueOrange E-commerce Gateway plugin, and press the "Settings" link.

Enter the Brand ID and Secret key. You can use the "Brand ID" and "Secret key" from the Merchant's cabinet at <https://gateway.blueorangebank.com/>. After entering the values, do not forget to check the "Enable API" checkbox and save the settings page.

7. Go to your WooCommerce store's checkout page and check that Blueorange payment method is available. It's advisable to test the Blueorange integration by using a real card.
